

Twinkl's Best Quick

Modelling Dough Recipe

You will need:

2 cups plain flour

½ cup salt

2 tbsp cream of tartar

2 tbsp vegetable oil

1 cup of boiling water

Optional: You may wish to add a few drops of food colouring or food extracts and flavourings, such as orange extract or rose water, to add a particular scent to your dough.

Method:

1. Mix together the plain flour, salt, cream of tartar and oil in a large mixing bowl.
2. If you are using the optional ingredients of food colouring and/or food extracts and flavourings, add these now to one cup of boiling water.
3. Stir the mixture well until it is combined together.
4. Once you feel that the dough is cool enough to touch, place it on a flat surface and knead until the dough is smooth and stretchy.
5. Twinkl's Best Quick Modelling Dough is now ready for children to discover, manipulate and play with.

Disclaimer: Twinkl is not responsible for the health and safety of your group or environment. Sensory activities can engage children in their play and learning, but supervising adults should check for allergens and assess any potential risks before an activity and only proceed if it is safe to do so. If you are unsure, always speak to a suitably qualified health professional. The final product in this resource is not intended to be eaten and it is your responsibility to ensure the safety of your wards.

Disclaimer: Raw flour, like other raw products, may contain harmful bacteria. Heat treating the raw flour may make it safer in the event of accidental consumption, however, this is not guaranteed. Adult supervision and discretion are necessary while using recipes that use raw flour. Children should wash their hands before and after handling raw flour. You must ensure that an adequate risk assessment is carried out prior to using this resource. It is your responsibility to ensure that the information/activity this resource contains is safe and appropriate to use in your situation. Twinkl is not responsible for the health and safety of your group or environment. Please be aware that children under the age of three will need to be supervised at all times due to potential hazards with handling and exploring sensory objects.
